

Visual Access to Mathematics

Free Online Teacher Workshop

Monday, December 4, 2023: 3:15–4:45 ET

Calling all Grade 6 & 7 mathematics teachers* in Connecticut! Join the Connecticut Department of Education and REL Northeast & Islands for a free online workshop about Visual Access to Mathematics, a professional learning course with a focus on English learners/multilingual learners (ELs/MLs).

In this workshop, participants will:

- Explore **evidence-based strategies** for supporting all students to use mathematical diagrams in their problem solving and communication.
- Learn about particular benefits of diagrams and other strategies for students who are **English learners/multilingual learners**.
- Access **tasks, tools, and online apps** that you can apply to your classroom.
- Gain **early access**: The workshop activities are a sample of the research-based Visual Access to Mathematics professional learning course that will be offered in Connecticut starting in 2024.

Interested?

- **Register for the workshop:** <https://forms.gle/UkuV4Xrpsa6Hxxwe9>
Registrants will also be added to the interest list for the Visual Access to Mathematics professional learning course.
- **Unable to attend the workshop?** Add your name to the interest list for the Visual Access to Mathematics professional learning course: <https://forms.gle/UkuV4Xrpsa6Hxxwe9>
- **Questions?** Email Jennifer Michalek at Jennifer.Michalek@ct.gov or Megan Alubicki Flick at Megan.Alubicki@ct.gov at the Connecticut State Department of Education. For questions about Visual Access to Mathematics, email VAM@edc.org.

*Space permitting, we welcome mathematics coaches, administrators, and EL/ML teachers who collaborate with mathematics teachers to join this workshop as well.
